

# Young Aviators Program

Lighting the Spark of Youth Interest in STEM - Science, Technology, Engineering & Math through Aviation

February 19, 2011

Dear Matt,

Congratulations on successfully completing your first solo aircraft flight today! We learned from your father about this outstanding accomplishment and are proud of you for it.

You demonstrated high aptitude for aviation and flying at the 2010 Young Aviators program, so we are more than pleased by your success. To our knowledge you are the first Young Aviators program graduate to solo which you can also take pride in.

Best wishes for continued success and please keep us informed on future accomplishments.

Warm Regards,

A handwritten signature in blue ink that reads "Scott Sellers".
